**Velvet
ICE CREAM**

The mere word "Ice Cream"
calls to your mind something
that is very good but something
that you don't get often because
you think it is a luxury.

Velvet Ice Cream
is a luxury to your taste but it
is cheap when you consider its
rich food properties.

GREAT EXPLORER EXPECTED TO GO DIRECT TO SAN FRANCISCO

(Continued from Page 7)

focus of active pressure, until, on
October 16, in the direct space of 10
seconds, the vessel was thrown out
on the ice on her beam ends, with
temperature below zero and the pumps
freezing.

On October 27 the end came. The
terrible pressure culminated in tear-
ing out the stern and rudder posts, the
main deck breaking upward. Ice-
bergs pierced the ship. The water
overmastered the pumps, extinguish-
ing the fires. Shackleton ordered all
hands on to the ice. The *Endurance*
sank on November 26.

Discovery Amidst Peril
While the ship having temporarily
broken out of the floe in October, was
zigzagging across the Weddell sea,
an important discovery was made.

Drifting across what was reputed to
be New South Greenland, the sound-
ings showed 1900 fathoms of water.
Camping on the ice near the wreck,
many perils were experienced, such
as cracks splitting the camp. At the
end of October they were in 69 degrees
5 minutes south latitude, and 51 de-
grees 32 minutes west longitude. The
nearest land and prospect of food was
Paulet Island, 346 miles distant. They
reorganized their equipment. All their
scientific records and film photos were
saved. On October 30 they started re-
laying toward the north, seven dog
teams relaying the provision sledges
and the men hauling the boats in half-
mile relays. Crossing the cracks they
were in danger from "killer" whales.

Their advance was one mile in a day.
Before the ship sank they had saved
100 cases of food from her by cut-
ting through the ice and the main
deck. Their three boats were prepared
for a sea journey and for two months
they drifted north. Sometimes afloat
and again dragging the boats over
rotten ice, the party had frequent es-
capes from obliteration. Finally they
reached Elephant Island on April 15,
1916, one of the boats having disap-
peared amidst a furious gale the pre-
vious night.

Party Left Behind
"Owing to the seriousness of the sit-
uation," Shackleton said in his re-
port, "the shortage of food and inade-
quate protection against winter, I de-

Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time In Many Instances

A Free Prescription You Can Have
Filled and Use at Home.

PHILADELPHIA, Pa.—Do you wear
glasses? Are you a victim of eye-
strain or other eye weaknesses? If
so, you will be glad to know that ac-
cording to Dr. Lewis there is real
hope for you. Many whose eyes were
failing say they have had their eyes
restored through the principle of this
wonderful free prescription. One man
says, after trying it: "I was almost
blind; could not see to read at all. Now
I can read anything without any
glasses and my eyes do not water
any more. At night they would pain
dreadfully; now they feel fine all the
time. It was like a miracle to me."
A lady who used it says: "The atmos-
phere seemed hazy with or without
glasses, but after using this prescrip-
tion for fifteen days everything seems
clear. I can even read the fine print
without glasses." It is believed that
thousands who wear glasses can now
discard them in a reasonable time and
multitudes more will be able to
strengthen their eyes so as to be
spared the trouble and expense of
ever getting glasses. Eye troubles of

many descriptions may be wonder-
fully benefited by following the sim-
ple rules. Here is the prescription:
Go to any active drug store and get a
bottle of Optona tablets. Drop one
Optona tablet in a fourth of a glass
of water and allow to dissolve. With
this liquid bathe the eyes two to four
times daily. You should notice your
eyes clear up perceptibly right from
the start and inflammation will quick-
ly disappear. If your eyes are bother-
ing you, even a little, take steps to
save them now before it is too late.
Many hopelessly blind might have
been saved if they had cared for their
eyes in time.

Note: Another prominent Physician
to whom the above article was sub-
mitted, said: "Optona is a very re-
markable remedy. Its constituent in-
gredients are well known to eminent
eye specialists and widely prescribed
by them. The manufacturers guar-
antee it to strengthen eyesight 50 per
cent in one week's time in many in-
stances or refund the money. It can
be obtained from any good druggist
and is one of the very few prepara-
tions I feel should be kept on hand for
regular use in almost every family."
—Adv.

**STATE MAY REWARD FIRST
GUNNER SINKING SUBMARINE**

OKLAHOMA CITY.—A joint res-
olution authorizing Governor Williams
to "pay a reward of \$100 to the first
American gunner who destroys a Ger-
man submarine caught in an attempt
to sink an American ship or any ship
carrying American passengers," was
recently introduced in the lower
house.

CHOLERA KILLS CHICKEN COLONY

Chicken cholera, one of the worst
diseases among chickens, occurred in
a flock during February, according to
the report of Dr. Victor A. Norgaard,
territorial veterinarian, to the board
of commissioners of agriculture and
forestry, an account of which by Dr.
Norgaard follows:

"An outbreak of this highly fatal
disease occurred in a flock of more
than 50 grown chickens, all of which,
with perhaps one or two exceptions,
died in the course of a few days.
Chicken cholera is one of the pasteu-
rella group of diseases like swine
plague and hemorrhagic septicaemia,
and the outbreak in question forms
an excellent illustration of the theory
that exposure and lessening vitality
are the principal causes of its appear-
ance. All of the chickens in question
roosted in the trees and when, during
one of the first nights in February, a
cold rain storm occurred, lasting al-
most from midnight to daybreak the
birds all became thoroughly chilled
and began dying the following day. A
postmortem examination proved the
disease to be typical chicken cholera,
which diagnosis was further brought
out by microscopic demonstration of
the polar staining hemorrhagic septi-
cemia bacterium. Though this disease
is supposed to be highly contagious
none of the neighboring flocks, all of
which were well housed, became in-
fected. The two or three survivors
undoubtedly must have been better
sheltered than the rest of them and
while this is the first outbreak of this
disease which has come to notice here
for several years it should, neverthe-
less, serve as a warning against leav-
ing poultry unsheltered during the
rainy season."

HOLSTEIN IS TO FATHER MEASURE ON IMMIGRATION

Speaker H. L. Holstein will be the
father of a resolution to memorialize
Congress to pave the way for immi-
gration on a large scale from the Ori-
ent to Hawaii.

As announced exclusively in the
Star-Bulletin, the resolution will call
upon Congress to amend existing laws
to permit the bringing of at least 30-
000 Chinese into the territory to work
in the rice fields and to engage in
other important industries.

If Representative Tavares, vice-
speaker, returns from Maui tomorrow
so that he can take the chair, Speak-
er Holstein will introduce the resolu-
tion at that time. If not, it will be
introduced early next week.

W. H. Hindle, a local resident, re-
cently visited Washington, D. C., and
appeared before legislators in the in-
terest of the immigration project. He
reported progress on his return to
Honolulu but said there was nothing
definite to announce.

The United Chinese Society is back-
ing up the movement and, in a peti-
tion, has set forth its opinions as to
the need of and demand for such im-
migration.

FOOD SOURING IN STOMACH CAUSES INDIGESTION, GAS

"Pape's Diapiesin" Ends All
Stomach Distress in Five
Minutes

Wonder what upset your stomach—
which portion of the food did the dam-
age—do you? Well, don't bother. If
your stomach is in a revolt; if sour,
gassy and upset, and what you just
ate has fermented into stubborn
lumps; head dizzy and aches; belch
gases and eructate undigested food;
breath foul, tongue coated—just take
a little Pape's Diapiesin and in five
minutes you wonder what became of
the indigestion and distress.

Millions of men and women today
know that it is needless to have a bad
stomach. A little Diapiesin occasion-
ally keeps this delicate organ regulat-
ed and they eat their favorite foods
without fear.

If your stomach doesn't take care
of your liberal limit without rebellion;
if your food is a damage instead of a
help, remember the quickest, surest,
most harmless relief is Pape's Diapiesin
which costs only fifty cents for a
large case at drug stores. It's truly
wonderful—it digests food and sets
things straight, so gently and easily
that it is really astonishing. Please,
for your sake, don't go on and on with
a weak, disordered stomach; it's so
unnecessary.—Adv.

**YEE CHAN & CO.
PLAN BIG SALE**

The big store of Yee Chan & Co.,
King and Bethel streets, announces a
monster clearance sale beginning to-
morrow, Saturday. This firm does not
often have special sales, and when it
announces one the public of Honolulu
responds quickly, knowing they will
get real bargains. Yee Chan Co.'s ad-
today quotes only a few leaders but
the store is crammed with bargains
for this event.

DRESS UP!
From now till next
Saturday is
**Dress-up
Week**
a week for men folks
to get all ready for
blossoming forth on Easter morning in
spic and span new Summer clothes.

¶ We make no class distinctions. We
leave that to the clothes we sell.

¶ We welcome equally the bank roll and
the pay envelope.

¶ We merely remind you here that Satur-
day is pay day, and it will be wise to buy
your Easter togs on that same day.

What Do You Drink?

Tea and coffee was the answer in most American
homes up to a few years ago, but nowadays a large
army of people are drinking

POSTUM

There's another, a serious question, back of this
great big fact—a question you should ask your-
self—"Does tea or coffee disagree?"

If nervousness or any physical discomfort follows
your usual table drink, it may be well to do as
others have done—Change to Postum.

A ten-day trial is sure to prove

"There's a Reason"
